

Editorial Note

The editorial board is presenting to you the peer reviewed Volume 2, Number 3 of the Journal of Sustainable Development and Environmental Protection. It's made up of eight papers chosen from the length and breadth of the unique and developmental field of sustainable development and environmental protection. The journal adheres to the facts that environmental protection is a veritable key to socioeconomic development and sustainable development.

Paper chosen in this edition like previous ones in Volume 2 are peer reviewed selected from the pool of papers presented at the 2012 International Conference on Sustainable Development and Environmental Protection held at the Bells University of Technology, Ota between March 20 and 22, 2012. These selected papers interlink and inter-relate environmental protection to societal development and support the principles of sustainable development and environmental protection.

The papers in this volume aligned with varied sustainable development disciplines such like food, nutrition, microbiology, biotechnology, engineering, material science, urbanizations, mining and security. They are mostly scientific analysis coupled with supportive literature analysis. All the papers proffer intelligible argument into solving environmental challenges.

The edition such like the previous one is expected to become working tools to scientists, engineers, environmental practitioners, industrialists, governmental policy analyst and initiators. The editorial board welcomes your comments, suggestions and feedbacks on the research articles. This will encourage the improvement of the quality of the journal.

Kind regards,

S. Adedeji Daramola (PhD)
