Editorial Note

This is the maiden issue of the Journal of Sustainable Development and Environmental Protection (IERD) published by the Institute for Environment Research and Development and hosted by Bells University of Technology, Ota.

The journal production is sequel to the 2010 International Conference on Sustainable Development and Environmental Protection held between September 21-23, 2010 at the Bells University of Technology, Ota convened by the Institute for Environment Research and Development (IERD) and Bells University of Technology, Ota.

This edition of the peer reviewed Journal of Sustainable Development and Environmental Protection cut across several disciplines in conformity with the multidisciplinary nature of the concept of sustainable development. Ten articles were selected for this edition.

The editorial team is delighted in the intellectuality and research stimulated

papers in this edition which are expected to play tangible roles in expanding research scope, inspire further researches and initiate policy reforms that will support the protection of our environment. The team commends the advisory board and the reviewers of the submitted articles for their painstaking advice in making this edition a success.

The editorial team expects you to find this maiden edition good to read, as a policy reformation tool, a useful reference material, and a contribution to the developing field of sustainable development. Therefore, we desperately look forward to your feedbacks and suggestions that will encourage and enable us to improve the quality of the journal.

Kind regards

S. Adedeji Daramola *PhD*
